

Voting in Grafton

Checking In

When you approach the check-in table, first tell the poll worker the name of the street where you live, then the street number, and finally your name. The voter's list is arranged in street order.

If you are disabled and need assistance, you may be accompanied by someone who can provide the needed assistance or request a poll worker to provide you with confidential, nonpartisan help.

If your name does not appear on the active list of voters:

The poll worker at the check in table will direct a voter whose name does not appear on the active voter list to the warden for further assistance. The voter may be in "Inactive Status" which will require the completing and signing of an Affidavit of Current and Continued Residency before being able to vote. The voter will also be required to show documentation that establishes their residence at the address listed on the voter list. If you are listed in another precinct in the Town, you must go to that precinct to vote.

If you are not on any voter list in the Town, but believe you have registered:

You will be offered a provisional ballot. The provisional ballot allows you to cast your vote, but will not be counted until your eligibility is determined.

If eligibility is confirmed, the ballot will be removed from its sealed envelope and grouped with similar ballots and counted in a manner that provides the greatest secrecy. If eligibility cannot be confirmed, your ballot will remain sealed in the envelope until such time as it is required to be kept and then will be destroyed without being viewed.

After Receiving Your Ballot

Once you give your address and name at the check-in table, you will receive a ballot and you can proceed to a voting booth for privacy.

You may vote for the choices available on the ballot or, if you prefer, write in the name of a candidate in the space provided on the ballot.

BE SURE TO VOTE BOTH SIDES OF THE BALLOT!

Once you have finished voting, you will proceed to the check-out table. Again, you will provide the poll worker with your street address and name. You will then insert your ballot into the ballot box.
