FOR IMMEDIATE RELEASE

March 3, 2010 – Split Body Trucks have been added to Solid Waste and Recycling routes in Grafton.

The Town has received phone calls from concerned residents regarding PAYT trash bags and recycling being emptied into the same truck during their scheduled pick up days.

We have been notified that on recycling weeks, our vendor has begun using a split body truck to transport waste and recycling out of Grafton. This refers to a vehicle that has two compartments that are completely separated by a metal barrier. Operationally, this saves time and expense of having to run an additional truck in Town.

If you have additional concerns about your trash and recycling pickup, please attempt to identify the truck number and time of day and contact the Grafton Municipal Center.
