
INTRODUCTION PROJECT TEAM

In June 2005, Symmes Maini & McKee Associates (SMMA) was retained by the Grafton School / Municipal Facilities Study Committee to evaluate the educational needs, space requirements, code requirements and condition of the towns' schools and municipal building. Over the past year, SMMA has: reviewed the existing drawings of the schools; reviewed previous studies; conducted a due diligence of the buildings and their systems; met with school administration and school principals in the process of understanding and defining the educational needs and met with the committee to review all work and discuss options for the future of the Grafton Schools.

PROJECT TEAM

Long Range Planning Study Committee
