Subject: 15 Blanchard Rd,

Upon request of the Grafton Board of Health, I made an inspection at 15 Blanchard rd. Grafton Ma, on the complaint of "odor." The following are my findings.

On December 11, 2015 at 10:30AM I inspected the barn and premises located at 15 Blanchard rd. It was overcast, approx. 52 deg. Fahrenheit, very slight breeze. I walked the entire area, saw a manure pile approximately 6 feet high and 12 feet in diameter. It appears that the p[ile had been turned in an attempt to "compost". The composition was primarily hay, with shaving and some dung. From every position I took, I could not smell any overbearing odor, except the normal smell that would come from an establishment of this type. The prominent odor was that of hay.

In my opinion there was no offensive odor emanating from this property.

Respectfully submitted

John L, Carlson
Inspector of Animals
