Grafton Planning Board
30 Providence Road
Grafton, MA 1519

Ref: Autism behavioral Services
13 Centennial Drive

Board Members:

I have reviewed the drawings that were submitted for the partial change of use at 13 Centennial Drive, which I have no comment on. However it is very important to the Fire Department that we have the proper classification of the building. If any buildings are educational facility this changes the Grafton Fire Department response for a fire alarm; from a still alarm which is a one station call to a first alarm which would be all three of Grafton's stations. This will also require that we do an annual inspection, and possibly fire drills.

Sincerely,

Stephen L Charest, Asst. Chief
