Comments:

I am writing to express opposition to the high-density development proposed on Wheeler Road.

This land is all part of a nearly continuous swath of open space extending up and over Brigham Hill, and secured for public enjoyment through massive multi-generational private and public expenditure. The proposed high-density development would cut across that open space, impairing both the habitat values and watershed function of the woods above Lake Ripple, not to mention the recreational value of this beautiful area.

I can add no more to what has already been so well written by Mr Crater. I echo his request to our Town Boards.
