Comments: The building in grafton has come to a tipping point the only spaces
to now build on encroach on open space and land trust woods. In order to keep
the natural feel of grafton and these open spaces used for what they are
intended for building in close proximity to these spaces needs to be halted.
The traffic at 122 is nightmarish and with the additional houses on wheeler
road the intersection at wheeler road and 122 will become worse than it
already is. There is enough growth in north grafton as it is and this will
take additional tolls on the town. It isn't about how much money this new
population will bring in, it's about the people that already live here being
happy about where they live.
