EXHIBIT 

PLANNING BOARD  
GRAFTON, MA

The proposed driveway opening for 17 Keith Hill Road Grafton, Ma 01519 is pictured below. In order to preserve two hickory shade trees on the property the driveway opening would start at the far right property bound depicted by the white stake. Once into the property is past the two hickory trees, the driveway would fade towards the left (marked in orange below) away from the property bound. The driveway would then meet the required variance to maintain a buffer for the remaining stretch of the driveway.
