

FEMA Region 1 Naloxone (Narcan) Training for First Responders and Emergency Managers

Join FEMA Region 1 on Thursday, April 13th, from 1:00PM to 2:30PM EST for a virtual *Naloxone training for first responders and emergency managers* where we will learn the procedural application of administering Naloxone. The training will be led by certified **Naloxone trainer, Kelly Valente**, who will cover some of the important trends related to drug overdose, the need for awareness, responsible citizen response, and best practices for Naloxone. The training is open to the public, so anyone can join

The training will cover the following items, and much more:

1. What our words mean: Key definitions
2. Why should I learn about naloxone?
3. What's an opioid overdose?
4. Who is at risk?
5. How do we know an overdose is occurring?
6. What is naloxone and how can it stop overdose?
7. Naloxone in action
8. Accessing and storing naloxone
9. Putting it all together
10. Frequently asked questions

Trainer Information:

- **Kelly Valente** PharmD, MS, BCACP, CPH, FAPhA
Regional Medical Counter Measure Advisor - Administration for Strategic Preparedness and Response (ASPR)

Who should attend:

- Anyone and Everyone! So invite some friends and colleagues!
